

**ST. CLAIR CATHOLIC
DISTRICT SCHOOL BOARD**
Lighting the Way – Rejoicing in Our Journey

July 27, 2014

To Whom It May Concern:

In the spring of 2013, Wellington Builders Inc. was awarded the renovation and expansion of our secondary school facility (St. Patrick's Catholic High School – 1001 Rapids Parkway) in Sarnia, Lambton. This project involved several complex renovations to the existing facility as well as constructing a new 50,000 sq.ft. addition. The 15 million dollar project involved construction and re-purposing of an entire facility so it's able to house a consolidated enrolment of approximately 1,500 (staff and students) for September of 2014.

Wellington Builders Inc. acted as our General Contractor for all phases of the project. Wellington Builders Inc. demonstrated the necessary expertise and knowledge to manage this extremely complex project. Renovations by definition are difficult, but the added complications of having to work around staff and students during the early and late stages of the project prove even more challenging. Throughout the entire project, we received excellent support and co-operation from Wellington Builders Inc. The management and supervisory staff assigned to the project were highly experienced and made valuable suggestions on ways to expedite construction.

Overall, the St. Clair Catholic District School Board are very pleased with the quality of construction and level of service provided by Wellington Builders Inc. Throughout the expansion and renovation, Wellington Builders Inc. provided a solid working relationship with all parties involved (consultants, sub-trades, suppliers, maintenance staff and owner) to get the job completed on time and within budget.

Sincerely,

Tony Montanino, P.Eng, MBA
