To Whom It May Concern:

This letter serves as a written recommendation for Wellington Builders Inc.

They have completed large scale multi-million dollar capital construction projects for the Board.

The company personnel are easy to get along with and handle changes efficiently at reasonable cost and effectiveness. They manage their subcontractors well and complete projects in accordance with the timelines.

I look forward to working with Wellington Builders Inc. again in the future.

Sincerely,

A handwritten signature in cursive script that reads "A. Scheibli".
