To: Whom it may concern

Subject: Reference Letter

I would like to recommend Wellington Builders Inc. for any project. Wellington Builders Inc. was the general contractor for our 24 million dollar Wellness Centre and Recreation Facility in Komoka and not only did they do an excellent job with the project, they were "on-schedule" and under budget.

Wellington Builders Inc. worked cooperatively with the architect, building committee and staff to ensure a quality project. We are very proud of our facility and we are still getting lots of positive feedback about this project. The professionalism of the staff and management of Wellington Builders Inc. with this project was readily apparent and they also accommodated the municipality with certain requests/questions during the construction of the building

Again, we would recommend Wellington Builders Inc. for any project.

Sincerely,

Michelle Smibert
